## Wetaskiwin Crystals Lose To Edmonton Hustlers

Fast Game Played at Edmonton Monday Evening  
But Ice Was Too Large for Wetaskiwin Team.  
Hustlers Play Here To-Morrow Night.

The Wetaskiwin Crystals journeyed to Edmonton on Monday to meet defeat at the hands of the Hustlers in the first game of the A.A.H.A. finale, when they were defeated by the score of six goals to two. As a result the Hustlers come to Wetaskiwin tomorrow (Friday) with a lead of four goals, and unless the Crystals can beat this lead they are out of the running for the championship of the province.

But as it was they made the Hustlers fight for every goal and at one period when the Crystals tied the score shortly after half time it was thought that they might eventually win out, but this only made the Edmonton boys pick up and they tallied five goals in quick succession.

In the first-half the Hustlers had the better of the game and the play was mostly all at the Crystals' end of the ice, but our boys were able to hold them down to one goal.

Wilkins played a beautiful game in goal and the fact that the Hustlers failed to get through him prevented them from piling up a big score. The only goal of the first half came after the teams had been leading unsuccessfully for twenty minutes. Desautel made a pretty rush and went right through to the net, eluding the Wetaskiwin defense men by brilliant stick play and Wilkins had no chance to stop the puck before it was in the net.

The second half opened with the Hustlers a goal ahead, but after five minutes' play James after a clever exhibition of combination along with Lake, scored the tying goal. After this the teams battled with an even score for the next twelve minutes, when Grant slipped one past Wilkins after a rush through the defense.

The next two goals were scored in quick succession. With two of the Crystals on the fence the Hustlers had a big advantage and made good use of it. From a face-off, Foster Grant secured the puck and did not stop until he had put the puck into the net on a close shot. The next goal was the fastest of the game, coming after twenty-five seconds of play. From the face-off the puck went to Bissett, who rushed and passed to Davidson inside the defense and the latter scored.

The Crystals stopped the Hustlers' rushes when the full team got back on the ice again. Poole did some clever stick-handling and got through the Edmonton defense and made a nice shot from the wing, the rubber landing in a corner of the net.

The Hustlers' fifth goal fell to the credit of Desautel and was the best of the evening. The left winger started from his own end of the ice and skated through the entire length of the ice, scoring the goal.

Wetaskiwin team for the goal. Dunlop scored the last goal after a beautiful piece of work on the part of the youth in Edmonton rover. He rushed from centre ice and shot while off his balance from outside the defense. The shot was waist high and was coming hard, giving Wilkins little chance to get it.

The principal was instructed to see to it that the Cadet Corps drill until the end of March if the same could be found for the small unit in the hands of the Cadet Corps, or standard to their credit.

Meeting adjourned.

Another of the chorus numbers is to be "The Golden Harp" and of this the Apollo Choir of Wetaskiwin hold the unique position of possessing the only known English copy in existence. This selection under the name of "V. Delya" has long been known as an old Welsh melody and has been sung by almost every Welsh choir in tour in America as well as the home.

It being impossible for a cosmopolitan choir composed of different nationalities such as the Apollo choir, to learn the original Welsh language, one of the members of the choir translated it into English and it has been arranged to sing the original melody by the leader of the choir, and it loses little, if any, from thus becoming through a Canadian as the choir is preparing it.

The other numbers of the program will all be in keeping with the evening and the choir will play some of the best given in Wetaskiwin.

## Mrs. Nellie McClung's Lecture.

The large audience which greeted Mrs. Nellie McClung's first appearance in Wetaskiwin, were delighted with her lecture.

Her attractive and alert personality made itself felt in her appearance on the platform. She seemed truly at ease. Her calm and womanly sympathy, her insight into human nature, her intense earnestness and conviction created a favorable impression upon her hearers at all times.

While viewing war from a woman's standpoint and in its relation to women, yet her point of view not being gained by "looking" through the knot-hole of her own little world, "must have appealed to all men present since Mrs. McClung's idea of a woman's sphere" is an entirely rational.

In her lecture, "Women and War" the speaker won her audience at the outset by her introduction "What," said she, "do women think of war? Not that it really matters," she naively added, "since they were not consulted." There was deep feeling in her pleasing voice as she went on to tell how the hearts of the women are wrung by the terrible realities of the war.

There was deep feeling in her pleasing voice as she went on to tell how the hearts of the women are wrung by the terrible realities of the war. "For," she said, "war never settled anything yet. It has only brought nations to a condition where they would be willing to arbitrate. "Oh, how most women wish," she continued feelingly, "yes, and men too, that this war would be settled by someone taking the place of the Kaiser Wilhelm and his army."

Mrs. McClung is of the opinion that if women's thoughts had had weight, there would have been no war.

The evil effects of war were aly and earnestly presented by the speaker. "The greatest loss," said she, "is not in the smiling faces that have been laid waste, not in the expenditure of the countless millions necessary to carry on the engagements, not in the vast destruction of works of art and sculpture, but in the loss of life." No one could estimate the loss to the nation of the war's millions. What could compensate a mother for the taking of her son, or the wife her husband. In this instance Mrs. McClung recited "Before Selah."

"But we have learned much in this last six months," continued the speaker in bringing before her audience the lessons of the war. "We have grown more thoughtful and careful, less selfish." She urged upon her hearers the necessity of true patriotism, that patriotism which should be universal. She endeavored to show that the narrow ideas of patriotism which have been fostered in our country are no people like to one's own country or people has worked harm in the past.

Mrs. McClung made a strong plea to the men in the cause of commerce during the conclusion of her lecture. She showed that there would be increased immigration to Canada from countries devastated by war, and urged the men present to vote for prohibition and to stand for clean politics.

The fifth concert of the Apollo choir series will be given on Wednesday, March 3. This date comes in the middle of Lent, but we are assured by the executive of the Apollo Choir that the music given at this concert will be appropriate for the Lenten season.

One of the chorus numbers will be the "Power Scene from 'Il Trovatore'" for the repetition of which a large number of requests have been received.

Another of the chorus numbers is to be "The Golden Harp" and of this the Apollo Choir of Wetaskiwin hold the unique position of possessing the only known English copy in existence. The regular business meeting of the Women's Relief Corps will be held in their rooms above the Merchants' Bank on Wednesday, February 21, at 4.30 p.m.

The relief committee will be present the same afternoon to receive appeals for assistance and donations for local relief.

The Corps have on hand a plentiful supply of flannellette and yarn, and would like as many ladies (that can, to volunteer to sew and knit.

Thanks to the generosity of the public the Kuchre drive of Monday last was a great success, over \$15 being taken in at the door. The Corps wish to thank Mr. Higgs and Messrs. French & Thomas who donated the two beautiful prizes were by Mrs. Poole and Mr. Lake, Mr. Higgs giving the sterling silver manicule and Messrs. French & Thomas the brass smoking set. They were both valuable and far above anything that would have been thought of.

The Corps wish to thank, too, the orchestra, consisting of Mr. Jenkins, Sergt. Michel and Mr. Woods, who so kindly contributed the music for the evening. This was the first public appearance of the orchestra and they have much for which to be thankful. Any musical appearance will be held with the appearance by Wetaskiwin.

PUBLIC HEALTH SERVICE

Public health work in the test or-  
ganized communities is now fully  
recognized as the highest goal of  
the community. For years, and even  
yet in many places, the Public  
Health department of a community  
is considered as serving to notify  
the community of the presence of  
disease. There is an indefinite un-  
derstanding that they should in some  
way advise as to the measures to be  
waged against disease. However  
this work is only in its beginning.  
The full role is as yet far from be-  
ing developed. The United States is  
unique in the organization of this  
campaign against false medical prac-  
tice. European countries pay more  
attention to active sanitary meas-  
ures in the community in regard to  
the food and water supply, as is  
shown by the comparative freedom  
from typhoid fever. The activity in  
the United States and Canada is  
more evident chiefly because their  
task is proportionately greater, and  
new fields have to be conquered as  
new communities are being estab-  
lished. Of the many spheres of activity  
one is impressed by the appreciation  
of the public to the revelation of  
the truth of medical practice. The  
secrecy of medical practice in the  
past has made possible the develop-  
ment of quackery in unscrupulous  
practitioners. The natural repug-  
nance on the part of medical prac-  
titioners to appear as commercial ad-  
vertisers has allowed the unscrupulous  
holders of diplomas to gain enormous  
advantage by using the public-  
ity of the press in many forms  
for the extension of their names and  
"specialties."

After many experiments in com-  
bating this field the conscientious  
members of the franchise have de-  
cided that the only way to instruct  
the public is to meet publicly with  
publicity, not in the former sense  
of a bottle, quackery will flourish.  
To the patient it should be  
said that the doctor can diagnose  
condition merely from the relation  
of symptoms of the appearance of  
the patient sitting in his chair with  
his clothes on. No matter how skill-  
ful the physician, he must make use  
of a thorough examination of his  
patient in all the symptoms, respira-  
tory, nervous, alimentary, and ur-  
inary before being able to give an  
opinion.

The practice in the United States  
of sending newspaper reporters with  
false line of symptoms to the sus-  
pected medical quack and the full  
report of the interview with the  
quack being exposed, has resulted  
in the people being warned of the  
existence of such. The Health de-  
partment of every community is jus-  
tified in analyzing the standing of  
every medical practitioner in the  
community from time to time, or  
even constantly doing so, and when  
it is apparent that there are false  
practitioners in the community the  
fact should be made known to the  
public. This is only one of the  
fields open to the Public Health Ser-  
vice.

As The Result  
Of A Neglected Cold  
He Contracted  
SEVERE BRONCHIAL TROUBLE.

Mr. W. T. Allen, Duluth, N.S., writes:  
"I feel that I would be doing you and  
your great remedy, Dr. Wood's Norway  
Pine Syrup, a gross injustice if I did not  
write and let you know the wonderful  
results that I have obtained from it."  
"Last winter I happened to contract a  
cold. Of course, this is a common oc-  
currence, and I did not take much no-  
tice of it at the time. However, it  
did not break up as quickly as colds  
generally did with me, so after a few  
days of improvement, I began to  
get shorted, and went to my local  
doctor who informed me that I had  
contracted severe bronchial trouble and  
that I must have medicine for it. He  
gave me about two weeks without any  
real improvement. I was getting dis-  
couraged by then, but a friend hap-  
pened to be in to see me, and he  
advised me to try Dr. Wood's Norway  
Pine Syrup, saying that he had obtained  
some. He said it was a real cure in  
a similar case. I took his advice and  
bought a bottle from my drug-  
gist. After taking it for a few days,  
for about two days, I noticed a  
decided improvement, and from that  
day on I began to get better. In ten  
days I was in my usual health. I con-  
sider this an excellent showing for your  
remedy, and can highly recommend it to  
anyone afflicted as I was. I shall always  
give it a good word for it whenever the  
opportunity offers itself."  
You can procure Dr. Wood's Norway  
Pine Syrup from any druggist or dealer,  
Price, 25c and 50c. THE ONE DOSE  
of Adler's relieves constipation  
and gas on the stomach almost im-  
mediately.

ORGANIZE A \$100,000 RURAL DEV.

BLOMPLET LEAGUE IN  
ALBERTA

A \$100,000 Alberta Rural Devel-  
opment league, that will have for its  
chief object the filling of Alberta's  
idle fertile acres, which, working at  
full capacity, were stated to be cap-  
able of feeding 50,000,000 people,  
was floated amid a scene of enthu-  
siasm at the Alberta farm develop-  
ment convention at Olds Agricul-  
tural College on Friday.

The labor such a scheme begin at  
such a period will involve; the nec-  
essary of public opinion being thor-  
oughly aroused to the necessity of  
the step being taken; the urgency of  
every single acre in Alberta, how-  
ever large or small, actively taking  
part in the work, was frankly out-  
lined by J. S. Dennis to the hundred  
delegates assembled from all parts  
of the province.

After the whole idea had been  
threwed out to the last scrap of argu-  
ment, and speeches showing that  
this was the only solution to the  
grave problem with which the pro-  
vince is faced, the gathering,  
meeting in the midst of the life ex-  
posed by every speaker on every pos-  
sible occasion, was a unit in acclaim-  
ing the formation of the league.

To secure the co-operation of all  
who are, or who may become inter-  
ested in the development of the  
farm lands of Alberta, in organized  
work for such development.

To advertise the agricultural re-  
sources of the province of Alberta.

To bring homesteaders into the pro-  
vince and locate them on the land  
in the best places for their several  
purposes; giving them reliable in-  
formation and securing for them  
the cheapest and best land to be  
had.

To effect a distribution of the popu-  
lation of the province so as to  
10 per cent of the people on farms  
and no more than 30 per cent in the  
urban centres.

To bring land at present unpro-  
ductive, under cultivation; this to  
have particular reference to lands  
in or near cities and towns.

To secure a better system of agri-  
cultural credits.

To facilitate the transportation and  
marketing of farm products.

To extend education along agricul-  
tural lines and promote the general  
betterment of farm life, social, edu-  
cational and economic.

To bring about a condition that  
shall do away with the present large  
population of agricultural districts  
which the province is capable of pro-  
ducing.

Mr. Dennis placed the matter be-  
fore the delegates in a strong speech  
in which he drew a grave picture of  
present conditions, declaring that  
the time had passed for "hot-air" con-  
ditions in the city, and that it was  
time to face matters as they stood.

He characterized the convention as  
one of the most important that had  
been held in the province of Alberta  
since its inception, and for this reason,  
the ten years of marvelous devel-  
opment in the west, probably un-  
equalled at any time in any place  
on the habitable globe, having re-  
ceived a natural check, the province  
of Alberta, in common with the  
rest of the west, was in a position  
with serious problems. Only by the  
solution of this could prosperity be  
brought about. The urban centres,  
he declared, were the cause of the  
depression of what was justified by rural  
development. Of the half million popu-  
lation in Alberta, 300,000 were on the  
land, and the remaining 200,000 were  
in the urban centres. He declared  
that the population had to be shifted  
until at least two-thirds were on the  
land, and the remaining one-third were  
in the towns and cities. With the collapse  
of railway construction, of municipal  
and other public works, hard times  
were before them, and the only way  
to meet them was to turn to the farm  
except in a limited strip in the  
province, where an unfortunate dis-  
aster struck last year. The majority  
of farms in Alberta were however in  
first class condition. The "hot-air"  
conditions of the cities, however, were  
now of the past, and the province  
was forced to face the solution of  
its producing problem before prosper-  
ity could be re-instated. Such an  
organization as it was now contin-  
ued to form consisted of 1-3-4-5-6-7-8-9-10-11-12-13-14-15-16-17-18-19-20-21-22-23-24-25-26-27-28-29-30-31-32-33-34-35-36-37-38-39-40-41-42-43-44-45-46-47-48-49-50-51-52-53-54-55-56-57-58-59-60-61-62-63-64-65-66-67-68-69-70-71-72-73-74-75-76-77-78-79-80-81-82-83-84-85-86-87-88-89-90-91-92-93-94-95-96-97-98-99-100-101-102-103-104-105-106-107-108-109-110-111-112-113-114-115-116-117-118-119-120-121-122-123-124-125-126-127-128-129-130-131-132-133-134-135-136-137-138-139-140-141-142-143-144-145-146-147-148-149-150-151-152-153-154-155-156-157-158-159-160-161-162-163-164-165-166-167-168-169-170-171-172-173-174-175-176-177-178-179-180-181-182-183-184-185-186-187-188-189-190-191-192-193-194-195-196-197-198-199-200-201-202-203-204-205-206-207-208-209-210-211-212-213-214-215-216-217-218-219-220-221-222-223-224-225-226-227-228-229-230-231-232-233-234-235-236-237-238-239-240-241-242-243-244-245-246-247-248-249-250-251-252-253-254-255-256-257-258-259-260-261-262-263-264-265-266-267-268-269-270-271-272-273-274-275-276-277-278-279-280-281-282-283-284-285-286-287-288-289-290-291-292-293-294-295-296-297-298-299-300-301-302-303-304-305-306-307-308-309-310-311-312-313-314-315-316-317-318-319-320-321-322-323-324-325-326-327-328-329-330-331-332-333-334-335-336-337-338-339-340-341-342-343-344-345-346-347-348-349-350-351-352-353-354-355-356-357-358-359-360-361-362-363-364-365-366-367-368-369-370-371-372-373-374-375-376-377-378-379-380-381-382-383-384-385-386-387-388-389-390-391-392-393-394-395-396-397-398-399-400-401-402-403-404-405-406-407-408-409-410-411-412-413-414-415-416-417-418-419-420-421-422-423-424-425-426-427-428-429-430-431-432-433-434-435-436-437-438-439-440-441-442-443-444-445-446-447-448-449-450-451-452-453-454-455-456-457-458-459-460-461-462-463-464-465-466-467-468-469-470-471-472-473-474-475-476-477-478-479-480-481-482-483-484-485-486-487-488-489-490-491-492-493-494-495-496-497-498-499-500-501-502-503-504-505-506-507-508-509-510-511-512-513-514-515-516-517-518-519-520-521-522-523-524-525-526-527-528-529-530-531-532-533-534-535-536-537-538-539-540-541-542-543-544-545-546-547-548-549-550-551-552-553-554-555-556-557-558-559-560-561-562-563-564-565-566-567-568-569-570-571-572-573-574-575-576-577-578-579-580-581-582-583-584-585-586-587-588-589-590-591-592-593-594-595-596-597-598-599-600-601-602-603-604-605-606-607-608-609-610-611-612-613-614-615-616-617-618-619-620-621-622-623-624-625-626-627-628-629-630-631-632-633-634-635-636-637-638-639-640-641-642-643-644-645-646-647-648-649-650-651-652-653-654-655-656-657-658-659-660-661-662-663-664-665-666-667-668-669-670-671-672-673-674-675-676-677-678-679-680-681-682-683-684-685-686-687-688-689-690-691-692-693-694-695-696-697-698-699-700-701-702-703-704-705-706-707-708-709-710-711-712-713-714-715-716-717-718-719-720-721-722-723-724-725-726-727-728-729-730-731-732-733-734-735-736-737-738-739-740-741-742-743-744-745-746-747-748-749-750-751-752-753-754-755-756-757-758-759-760-761-762-763-764-765-766-767-768-769-770-771-772-773-774-775-776-777-778-779-780-781-782-783-784-785-786-787-788-789-790-791-792-793-794-795-796-797-798-799-800-801-802-803-804-805-806-807-808-809-810-811-812-813-814-815-816-817-818-819-820-821-822-823-824-825-826-827-828-829-830-831-832-833-834-835-836-837-838-839-840-841-842-843-844-845-846-847-848-849-850-851-852-853-854-855-856-857-858-859-860-861-862-863-864-865-866-867-868-869-870-871-872-873-874-875-876-877-878-879-880-881-882-883-884-885-886-887-888-889-890-891-892-893-894-895-896-897-898-899-900-901-902-903-904-905-906-907-908-909-910-911-912-913-914-915-916-917-918-919-920-921-922-923-924-925-926-927-928-929-930-931-932-933-934-935-936-937-938-939-940-941-942-943-944-945-946-947-948-949-950-951-952-953-954-955-956-957-958-959-960-961-962-963-964-965-966-967-968-969-970-971-972-973-974-975-976-977-978-979-980-981-982-983-984-985-986-987-988-989-990-991-992-993-994-995-996-997-998-999-1000-1001-1002-1003-1004-1005-1006-1007-1008-1009-1010-1011-1012-1013-1014-1015-1016-1017-1018-1019-1020-1021-1022-1023-1024-1025-1026-1027-1028-1029-1030-1031-1032-1033-1034-1035-1036-1037-1038-1039-1040-1041-1042-1043-1044-1045-1046-1047-1048-1049-1050-1051-1052-1053-1054-1055-1056-1057-1058-1059-1060-1061-1062-1063-1064-1065-1066-1067-1068-1069-1070-1071-1072-1073-1074-1075-1076-1077-1078-1079-1080-1081-1082-1083-1084-1085-1086-1087-1088-1089-1090-1091-1092-1093-1094-1095-1096-1097-1098-1099-1100-1101-1102-1103-1104-1105-1106-1107-1108-1109-1110-1111-1112-1113-1114-1115-1116-1117-1118-1119-1120-1121-1122-1123-1124-1125-1126-1127-1128-1129-1130-1131-1132-1133-1134-1135-1136-1137-1138-1139-1140-1141-1142-1143-1144-1145-1146-1147-1148-1149-1150-1151-1152-1153-1154-1155-1156-1157-1158-1159-1160-1161-1162-1163-1164-1165-1166-1167-1168-1169-1170-1171-1172-1173-1174-1175-1176-1177-1178-1179-1180-1181-1182-1183-1184-1185-1186-1187-1188-1189-1190-1191-1192-1193-1194-1195-1196-1197-1198-1199-1200-1201-1202-1203-1204-1205-1206-1207-1208-1209-1210-1211-1212-1213-1214-1215-1216-1217-1218-1219-1220-1221-1222 ## EMMANUEL

The Rectory,  
Quinquagesima

My Dear Parishioners:

Again we are on the threshold of Lent. Will it mean anything to you? Lent is what we make it. As an enforced perfunctory observance, it can do us no good. It may bring with it all manner of abstinence and devotion which however is so tiresome and unnatural that one is as eager to have done with it as loth to begin it. What good would it do to listen to music this way? or to go through the round of pleasures? But Lent if the heart is in it, will be in every way helpful. If the good in it is greatly desired and sought for, if one would gather from it a livelier faith and deeper consecration—live less in carnal pleasure, a part more in the godly motion of the Spirit, how truly will one find such blessed fruits in prayer and fasting. Let us pray fervently this Lent, that our spiritual life may be quickened, that our hearts may be more fully given to Him who is so anxious for them, and that Unity and Love may be our Watchword now and ever.

Your loving pastor,  
J. H. Sheppard.

The following services will be conducted in Emmanuel Church during Lent:

First Sunday in Lent—"The First Word from the Cross." "Forty days Fasting."

Second Sunday in Lent—"The Second Word." "Forty Days' Punishment."

Third Sunday in Lent—"The Third Word." "Forty Days with God."

Fourth Sunday in Lent—"The Fourth Word." "Forty Days Marching the Land."

Fifth Sunday in Lent—"The Fifth Word." "Forty Days' Teaching."

Sixth Sunday in Lent—"The Sixth Word." "Forty Days' Struggle."

Good Friday, April 2—"The Seventh Word." 11 a.m.

Easter Sunday, April 4-11 a.m. "The Stone Rolled Away." 7.30 p.m. "The Shaking of Nature."

Mar. 3—"The Chain of Selfishness."

Mar. 10—"The Chain of Indifference."

Mar. 17—"The Chain of Pride."

Mar. 24—"The Chain of Intemperance."

Mar. 31—"The Chain of Worldliness."

## A "DRY" MOON

An example worthy of note is set by the moon this month. In the whole twenty-eight days Luna will not become full once.

According to authoritative astronomers the moon will not reach maturity during the 28 days of February, and the same authorities say that this is the first time that this has occurred since 1866. They also state that such a phenomenon occurs February without a full moon on any year about three or four times a century. The lunar month is a little more than 29 days so that the next full moon will be March 1, 1866, when the last phenomenon of this nature occurred was a peace year, following the American civil war.

The Times prints butter wrappers right, using brine proof ink and genuine vegetable parchment paper. Use the best!

## Was Troubled With Nervous Prostration.

Many people although they know of nervous prostration do not know what the symptoms are. The principal ones are, a feeling of faintness in crowded places, a dread of being alone, fear of being in a confined place, a horror of society, a dread of things falling from above, fright at travelling on railroad trains, and disturbed and restless, unrefreshing sleep, often troubled with dreams.

Mrs. George Lee, Victoria Harbor, Ont., writes: "I am writing to tell you of the experience I have had with Milburn's Heart and Nerve Pills. I was so nervous I could not do my own work. I did not want to see any one, or would I go any place. My nerves were bad for three years, and my heart was so bad it made me tremble all over. I took three boxes of your pills, and I never was better than I am now. I weigh 20 pounds more than I ever did."

Milburn's Heart and Nerve Pills are 50c per box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

## SOCIAL ORIENTAL MOVEMENT AT WATERLOO

The people of Waterloo have with characteristic progressiveness, erected a new building to be used as a Rural Social Centre.

The hall was formally opened on Friday last by a Valentine at Home given by the members of the hall association.

The decorating, designed and carried out by Mr. E. E. Eddy was most effective. Flags, hearts, cupid, evered out by Mr. E. E. Eddy was most greens and festoons of green and red transformed the bare, unfinished walls into a hall of beauty. The refreshment table in charge of Mrs. Phillips committee, occupied the back of the stage. The cloth was draped with graduated hearts and the centre piece was a large mirror surrounded by natural green and crossed by a rustic bridge plentifully sprinkled with broken hearts.

The hall was packed to the door with guests from Bashaw, Ponoka, Anker, Magic, Malmo, Ferintosh and Meaford to show their interest in the undertaking.

President Geo. P. Root occupied the chair and gave a brief resume of the aims of the association; the need of co-operative effort; the necessity for a large audience room for community work, and some of the lines of public service, practical to this particular district. In thanking those who had contributed funds or work, special acknowledgement was made to Mrs. Charles Johnson for the gift of an acre of ground, to Mr. Dufva, the carpenter in charge of the building, to Mr. Howitt for his untiring effort in securing the work going, and to Madames Kalman and Johnson for hospitality extended to the men who assisted in the building.

In introducing speakers, Mr. Root was in his best form and all were most happy in their mode of presenting their thoughts.

Addresses were given by Dr. Campbell, M.P.P., J. N. L. Berger, Geo. Gordon, and Mr. O. L. Save.

Excellent music was provided by T. Hackett, O. Williams and the Waterloo Male Quartette.

Rev. Alexander of Ponoka, gave a lantern exhibition "Rescue the Perishing." The congregation rendered the hymns and Mr. Alexander spoke on the subject.

Following this refreshments were served and sociability reigned.

The following Sunday the Church of England congregation held service in the hall.

On Monday evening a Valentine dance was given with the best music obtainable and under the direction of the leading ladies of the community.

The Waterloo Dramatic club will give a play for the Belgian Relief fund in the near future. The exact date is not yet known.

The program committee are in correspondence with several parties with a view to obtaining a large number of lectures this season.

As the district is made up of a number of nationalities, supporting several churches, great respect is expected to result from the better acquaintance which will be one of the outgrowths of united efforts at the social centre.

It will be made for more effective citizenship, greater civic pride and more co-operative effort as farmers.

## NOT WORTH WHILE

The night of death will soon descend, a few short years and then the end, and perfect rest is ours; forgotten by the busy throng, well asleep, while seasons roll along, beneath the grass and flowers. Our career in this world is brief, so why go hunting care and grief, who have a troubled mind? And why take the time of getting mad, and making fools around us, by saying words unkind? Why not abjure the base and mean, why not be sunny and serene, from spite and envy free? Why not be happy while we may, and make our earthly stay a joyous journey? We're here for just a little while! And then we go and leave the pill for which we strive and strain, worn out and broken by the grind, we go, and leave our wads behind—such efforts all in vain. We break our hearts and twist our souls, acquiring large and useless rolls of toms and kindred things, and when we reach St. Peter's town, they will not buy a sheet-iron crown, or cast-off pair of wings. Why, when you are this sick and skimp and save? The money will not buy a grave much better than the one in which the village pauper lies. In this brief life, our career is brief, who has his share of fun—Walt Mason.

## COMPENSATION TO

REACH (250,000.00)

Lethbridge, Feb. 11—Under the Alberta Workmen's Compensation Act, the Hillcrest Collieries, Ltd., will pay over to the dependents of the miners who lost their lives in the Hillcrest mine on June 19 last, approximately \$250,000. The agreement between this company and the representatives of the United Mine Workers of America provides for the payment of the full compensation, namely \$15,000, to the dependents of 17 deceased miners, and it is the opinion of the officials of this company that this number should be brought up to 90. These are scheduled under Class "A" of the agreement.

Thirty-two of the deceased men were Austrians. Their rights have been acknowledged by the company, but no compensation will be paid to their dependents who live in Austria until peace has been declared by Austria and Great Britain. These are classed under schedule "B," the ones under schedule "C," number 8, and are represented as they have only partial dependents, when are recognized by the company, whose compensation will not be paid until the matter is adjusted.

## THE SCREEMING PROBLEM.

In speaking on "Screeching as a hindrance to Stock" at the recent meeting of the Saskatchewan Live Stock Breeders' Association, Mr. J. D. McGregor suggested that the commonest cause of the screaming problem should be ground and sent back from the farm to the breeder.

These properties are located on the farm. Mr. John R. Dymond, Head Branch, Ottawa, in his investigation of the screaming problem, (see Agricultural Gazette of Canada, May and September, 1914, and Annual Reports Ontario Experimental Union, 1913 and 1914) states that over 60,000 tons of screenings would be taken from grain in terminal elevators for the year ending August 31, 1914. Approximately 10 per cent of this consists of "black seeds," chiefly lamb's quarters, and mustard. The remaining 60 per cent, or 35,000 tons, consists of screenings, succinate (lax) and buckwheat screenings, and when carefully ground is a valuable stock feed.

Let us consider the financial aspect of the problem. The 1913 report of the Saskatchewan Commission on grain markets places the average cost of hauling wheat from the farm to the railway station at 5¢ per bushel, and terminal elevator charges at 2¢ and average freight rates from Saskatchewan points to Fort William at 12¢ per bushel, making a total of 19¢ per bushel. Taking Saskatchewan's own average tonnage for the year, 60,000 tons or 2,400,000 bushels of screenings at 19¢ per bushel results in \$456,000 charges in getting them to the terminal elevators.

How can this amount be saved to the producers of screenings and added to their feeding value on the farm of the West? To quote Mr. Dymond: "It is believed that a cleaner of simple design and of comparatively small cost of construction and operation could and should be used on every threshing machine to remove the screenings which otherwise are not removed until the grain is taken to the terminal elevator. Cleaning in this way would of course intensify the cost of threshing, but even then the enormous benefit would result to the farmer, not only by a great reduction in the expenses of handling and transportation, but also through its value as a feed for live stock on his own farm."—Seed Branch, Ottawa.

On Monday, March 1, a money order for \$45,000 will be submitted to the burgess of Edmonton to cover the Viking gas well from the Edmonton Industrial Association drilling company. This decision was reached at the court meeting held Tuesday afternoon, at which different officers of the association were present.

## JUDICIAL SALE OF

Dated at Edmonton, Alberta, this 31st day of December, A.D. 1914.

(Sgd) ALEX TAYLOR, Clerk of the Supreme Court of Alberta.

Don't Allow Your Bowels To Become Constipated.

If the truth was only known you would find that the cause of the trouble of life are caused by allowing the bowels to get into a constipated condition. When the bowels become constipated the stomach gets out of order, the liver does not work properly, and then follows the various troubles of the system, the secretion of the stomach, belching of wind, heartburn, water brash, flatulencies, and a general feeling that you are not there for anything.

Keep your bowels regular by using Miller's Lax-Liver Pills. They will clear away all the effete matter which collects in the system and make you think that "life is worth living."

Mrs. Huns. McKelrick, Warfield, Ont. writes: "For several years I was troubled with my stomach and bowels, and did not get relief until I used Miller's Lax-Liver Pills. I had only taken these two weeks when my trouble was quite gone, and I will recommend them to all suffering as I did." Miller's Lax-Liver Pills are 50¢ per box, 5¢ each. \$1.00, at all drug stores or dealers, or will be mailed on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

# PATRIOTISM and PRODUCTION

## The Empire's Call to Farmers

"Approximately twenty million men have been mobilized in Europe. A large proportion of these have been withdrawn from the farms of the countries at war. Even in neutral countries large numbers of food producers have been called from the land to be ready for emergencies. It is difficult for us to realize what will be the effect on food production through the withdrawal of several million men from all the great agricultural countries of Europe. These millions cease to be producers, they have become consumers,—worse still, they have become destroyers of food."

HON. MARTIN DURRELL, Minister of Agriculture.

Britain must have food—food this year, and food next year. Britain is looking to Canada to supply most of that food. We are sending our surplus now, but we must prepare for a larger surplus this year and next year. Patriotism and Production must go hand in hand.

Because of this need of the Empire for more food, and the call to Canada in that need, the Canadian Department of Agriculture has arranged for a series of Conferences throughout the Dominion with the object of giving suggestions as to the best ways of increasing production of the particular

products needed at this time. At these conferences agricultural specialists, who have studied agricultural conditions and production throughout the world, and the best means of increasing agricultural production in Canada, will give valuable information and suggestions to the farmers, live-stock men, dairymen, poultrymen, vegetable growers, and other producers of this country. The Canadian Department of Agriculture

urges you to attend as many of these Conferences as possible, also to watch for other information on the subject that will be given in other announcements in this newspaper.

## ATTEND YOUR CONFERENCE

## Put Energy into Production of Staple Foods

The Government does not ask farmers to work harder, so much as it urges them to make their work more productive, and to produce those staple foods that the Empire most needs and that can be most easily stored and transported.

Europe, and particularly Britain, will need the following staple foods from Canada more than ever before:

Wheat, oats, corn, beans, peas, beef, mutton, bacon and ham. Cheese and butter.

## Poultry and eggs.

Vegetables, such as potatoes, onions, and turnips.

The larger the yield of these staple food products, the greater the service to the Empire. Germany in the last ten years has doubled the average yield of the majority of her field crops, largely through better seed, thorough cultivation and use of fertilizer. And while the Empire's armies are busy putting down German Militarism, let us at home appropriate the best of Germany's agricultural methods for the Empire's advantage.

The Government urges farmers, stockmen, dairymen and other producers to make a wider use of the Free Bulletins issued by the Canadian Department of Agriculture. Clip out, fill in and mail the coupon below and get a list of these bulletins. Then select the bulletins that will be of value to you. Mail your coupon right now. Do not put a stamp on the envelope. Your coupon will be "On His Majesty's Service."

## WHAT IT COST CANADA TO GET TROOPS READY TO GO TO WAR.

Ottawa, Feb. 12.—The organization of the Canadian expeditionary force, the work performed in that connection by each branch of the militia department and the expenditures made are dealt with in a printed memorandum of 100 pages, just issued by the militia department. The first part of it gives in detail the organization of the first contingent and being followed in regard to since raised or in process of enlistment. The report of the quartermaster refers to the fact that 35,000 men were equipped in six weeks and briefly explains how this task was accomplished. As soon as the first contingent left arrangements were begun to similarly equip subsequent contingents.

## HE WENT FOR A SOLDIER.

He marched away with a blithe young score of him. With the first volunteers, Clear-eyed and clean and sound to the core of him. Blushing under the cheeks. They were fine, new flags that swung a-lying there, Oh, the pretty girls he glimpsed a-crying there, Petting him with pinks and with roses— Billy, the Soldier Boy!

Not very clear in the kind heart of him. What the fuss was about. But the flowers and flags seemed part of him— The music drowned his doubt. It's a fine brave sight they were a-crying there, To the gay, bold tune they kept a-drumming there, While the hoasting pipes shrilled jauntily— Billy, the Soldier Boy!

Soon he is one with the blinding smoke of it— Volley and curse and groan; Then he has done with the knightly joke of it— It's ending flesh and bone. There are pain-crazed animals a-shrieking there And a warm blood stench that is a-reeking there. He fights like a rat in a corner— Billy, the Soldier Boy!

There he lies now, like a ghoulish score of him. Left on the field for dead: The ground all around is smeared with the gore of him. Even the leaves are red. The thing that was Billy lies a-dying there, Writing and a-twisting and a-crying there; A sickening sun grins down on him Billy, the Soldier Boy!

Still not quite clear in the poor, wrong heart of him. What the fuss was about; See where he lies—or a ghastly part of him— While life is oozing out: There are loathsome things he sees a-crawling there; There are hoarse-voiced crows he hears a-calling there, Eager for the foul feast spread for them— Billy, the Soldier Boy!

How much longer, O Lord, shall we bear it all? How many more red years? Story it and glory it and share it all. In seas of blood and tears? They are brazen attitudes we've worn so long; They are tinsel platitudes we've sworn so long— We who have turned the devil's grin down. Borne with the hell called War!

## NEW TAXES IMPOSED TO PRODUCE REVENUE NEEDED BY DOMINION

Ottawa, Feb. 11.—Hon. W. T. White in his speech took up the taxes to be imposed.

Upon the note circulation of all banks one per cent.

Upon the gross income of every trust and loan company, one per cent.

Upon net premiums of insurance companies other than life, fraternal, benefit and marine insurance.

Upon every cable and telegraph company in Canada one cent per message for which fifteen cents is charged; tax to be collected from sender.

Upon railway or steamship tickets returned in Canada for any point in Canada. New foundland, the West Indian colonies or the United States.

Upon every berth in a sleeping car ten cents.

Upon every seat in a parlor or five cents, the railway or steamship company selling the tickets to collect the tax from purchaser.

Upon every person, firm or company carrying passengers by vessels outside of Canada, Newfoundland, the British West Indies and the United States, one dollar for each person buying a ticket up to ten dollars, three dollars over thirty dollars, five dollars over fifty dollars.

In addition the following stamp taxes were imposed:

Upon all cheques, receipts to banks by depositors and upon bills of exchange, two cents.

Upon all express and post office money orders, one cent.

Upon letter and postal cards post paid in Canada, one cent.

Upon bills of lading, two cents.

Upon proprietary or patent medicines and perfumery, one cent for bottle or package costing ten cents or less, and one cent for every additional ten cents.

The wine taxes are five cents per quart or less upon non-sparkling wine sold in Canada and five cents for each additional quart; twenty-five cents for every pint of champagne and sparkling wine and twenty-five cents for each additional pint.

The wine taxes to become effective at once and the other levies to be fixed later.

Mr. White said he expected to raise \$8,000,000 on these taxes. The finance minister announced that there would be no income tax and gave a number of reasons for this decision.

The tariff taxation outlined by Mr. White consisted of a horizontal increase in the customs duties upon all goods and commodities, with certain exceptions, imported into or taken out of bonded warehouses.

The list includes all articles hitherto dutiable or on the free list and whether raw material or finished or partly finished products. The increase is seven and a half per cent ad valorem to the general and intermediate tariff and five per cent ad valorem to the British preferential.

For iron ore the duty is specific and not ad valorem.

The exceptions include articles specified in the trade convention with France and agreements with certain West Indian colonies and silk fabrics, velvets, wheat, flour, tea and fish.

Macleod, Feb. 12.—The first case under the white slavery act dealt with in Macleod was given a preliminary hearing this week, when a Bellevue resident appeared before Superintendent Starnes on a charge of attempting to procure a young girl under 16 years. The case was heard behind closed doors and accused was committed to the supreme court for trial, being allowed out on a \$10,000 bail.

About \$200 was the amount realized from the motion picture show held at Ferry Point on behalf of the 7,000,000 starving Belgians. The concert was given under the auspices of the Ferry Point U.F.A.

## MILE OF RAILWAY FOR EACH 125 PERSONS

"Alberta now has a total railway mileage of 4,097 miles, or one mile for each 125 persons in the province."

"The railway mileage of Alberta has just about doubled in three years (December 31, 1911, there were 2,100 miles; on December 31, 1914, 4,097 miles—an average of 684 miles per year, for the last three years, or over two miles per day, including Sundays.)"

"The total railway construction in the whole of the Dominion last year amounted to 1,011 miles. Twenty-two per cent of the total construction of the year therefore took place in the province of Alberta."

The above interesting statements were made a few days ago by Hon. A. L. Sifton, premier of Alberta and minister of railways, and show the tremendous railway development taking place in the province. A strident voice of this development is that a large proportion of this completed mileage is due to the guarantee policy of the government. The total mileage of extended railway guaranteed by the government is 1,220 miles of steel have been laid and 347 miles of additional grading done, so that 57 per cent of the total work in connection with Alberta railway guarantees has been completed. To show that these completed lines are not a figment of the imagination, it may be said that it is possible for any person to take a train journey over every mile of them, or, in other words, they actually are in operation.

The mileage in Alberta is apportioned to the different companies as follows:

Canadian Pacific ..... 1,887  
Canadian Northern ..... 1,178  
Grand Trunk Pacific ..... 707  
E. D. & B. C. O. .... 249  
A. & G. W. .... 75

During the present month this mileage has been considerably added to in connection with the two latter railways.

A comparison of the railway mileage since the province was first formed affords an interesting study. In 1905 the only mileage was held by the C.P.R. and amounted to 1,000 miles. It was brought up to 1,323 by the end of 1907, the Canadian Northern doing their first construction work in the province and being responsible for 220 miles. The first announcement of the Grand Trunk was in 1908 when the company built 40 miles and it has added to its mileage every year up to the end of 1913, when its total mileage was 707.

The new edition of the Land and Pre-emption map, which has just been issued from the department of the Interior, shows interesting and useful information (corrected to a very recent date) with regard to the land situation and the pre-emption and purchased homestead tracts throughout the three prairie provinces. Figures in green show at a glance the total number of quarter sections still available for homestead entry in each township, while special information has been included in the publication showing the areas within which quarter sections may be pre-empted, and the boundaries and location of each agency at which entry may be made for available land in the respective district. Complete information is also given with respect to townships which have been surveyed. Copies of this publication may be obtained free of charge upon application to P. C. Lynch, superintendent of the highway lands branch, department of the Interior, Ottawa.

Red Deer, Feb. 11.—Richard Oakes was sentenced by Mr. Justice Hyndman yesterday at the criminal assizes to five years' imprisonment for cattle stealing, and to two years for stealing from a Canadian Pacific railway freight car, both sentences to run concurrently. W. J. Bush also pleaded guilty to a charge of cattle stealing, and was given a month in jail. The judge remarking that he considered him of defective intelligence. These convictions are the fruit of a vigorous campaign against cattle stealing which is being prosecuted by the riders of the plains to great effect.

## DEPENDENCELESS BRITISH

SHIPS ARE PREY OF GERMAN SUBMARINE

Leetwood, via London Jan. 31.—A German submarine, 21, on Saturday torpedoed the North Shields tanker Ben Cruschen, of this port. The entire crew, numbering twenty, were landed here.

The same German submarine is reported to have sunk two other vessels in the vicinity where the Cruschen went down.

The captain of the steamer says he was overtaken by the submarine this morning and ordered to leave his ship within ten minutes. Hardly had the crew got into the boats when a torpedo was fired and the steamer went down. The Ben Cruschen, which was of 1,978 tons register, and belonged to the Merriam Shipping Company was on a voyage from the Orkney Islands to Liverpool via a general cargo.

Fleetwood is one of the principal fishing and shipping ports and waiting places on the west coast, and across the bay from Farrow-in-Purcell, where famous shipbuilding yard is situated.

Constable Allen, No. 32, of the city police force had an exciting chase for over three blocks at 1 a. m. on Sunday morning, the object of his pursuit being Leroy G. Pepper whom the constable had noticed leaving J. W. Cope's pantorium, 112th and Jasper in a rather hurried manner. Pepper took to his heels as soon as he noticed the officer, but was caught after a breathless sprint.

It is alleged that he admitted breaking the glass in the store door, turning the Yale lock, and going into the store for the purpose of stealing clothes. Inspector Schulte, highly commended Constable Allen's vigilance.—Bulletin.

## W. C. T. U.

AFTER PROHIBITION—WHAT?

This was the live topic discussed at the National W. C. T. U. organizers at the recent convention at Atlanta, Georgia. One of the speakers said that the reply of the liquor interests to this question is "blind rage and whisky drummers". She pointed out, however, that these are found wherever the legalized saloon exists. Own town she visited in her organizing work the past year had five saloons and over twenty-five blind pigs! A town with eighteen saloons had over fifty, and another with 150 saloons had 150 illegal places. And this proportion will hold good generally. It is well said that prohibition does not produce blind pigs, it merely reveals them; and that the best breeder of blind pigs is the licensed saloon.

A WORLD ISSUE.

When the cartoonists begin to exploit prohibition on the front pages of the metropolitan dailies and a paper like the Chicago Tribune pictures "King Alcohol" as lowing his crown and whisking drummers! She pointed out, however, that these are found wherever the legalized saloon exists. Own town she visited in her organizing work the past year had five saloons and over twenty-five blind pigs! A town with eighteen saloons had over fifty, and another with 150 saloons had 150 illegal places. And this proportion will hold good generally. It is well said that prohibition does not produce blind pigs, it merely reveals them; and that the best breeder of blind pigs is the licensed saloon.

PROZEN HAND SUPPORTS MAN FOR 50 MILES

John McLennan, temporarily embarrassed, had a hard experience on journeying north with two comrades on Wednesday, and will probably lose most of his right hand by amputation.

The three boarded a C.P.R. heated car at Aldrie on a north-bound freight early Wednesday morning, but became affected by charcoal fumes. McLennan attempted to open the heavy iron manhole cover in the top of the car, but it slipped a red string. He hung there suspended from Olds to near Red Deer as his comrades were too much overcome to help him, and it was only when the brakeman saw the hand in his run over the cars with his lantern that the cover was lifted and the man dropped to the car floor. Assistance was called on from Chief Anderson, and the men received medical treatment to rouse them. After a day's stay in the cells the two men last affected got out, but McLennan will probably stay in the hospital for four weeks as his hand was badly frozen as well as the wrist being crushed and drawn all out of shape. It was only the slight opening of the manhole, however, which saved all three men from asphyxiation—Red Deer Advocate.

## THE RECOGNIZED PROBATION OFFICER

In the field of mechanics lighters are supplementing the heavier visible ones. The ox team, the edge coach, water, steam, electricity, radio, and the lighters. The lighters are the most effective. So in society, lighter and lighter become the show of force. It is not the voice and bulk now so much as the harmony and refinement; it is not display so much as subtle suggestion, a power of drawn and will, a presence of heart which makes a lady or gentleman. This, it is which carries the sceptre and wears the crown. So also in the treatment of our delinquent classes, the treatment of coarse brutal force represented by physical pain has largely passed away. We believe in the effectiveness of environment and instruction.

An important figure in the new regime is the probation officer. His influence and mission in society will be most fully recognized as the years pass. He is charged with responsibilities that are vital to the state. He is to a large extent arbiter of the destiny not only of the delinquent boy and girl, of the dependent and orphaned child, but he is also becoming the umpire of the family dispute and the arbiter of family discipline. His judgment in a great many cases determines whether parents shall be allowed to bring up their own children or whether the agent of the law shall step in and consign the children to the hands of strangers. He is the confidential agent of the court. The judge must largely depend upon his testimony in order to reach a wise decision in many critical cases. His report is absolutely impartial and reliable not only in the statement of facts but in the impression that he shall make upon the court.

It is absolutely impossible for a pessimist to succeed as a probation officer. He must believe in the improvable of those committed to his charge. It is noted by Emerson among the qualities of Napoleon, that he took bandits, smugglers, highway robbers and all sorts of lawless men out of the 'tubs of France and made super soldiers out of them and heroes of many. The probation officer cannot imitate Napoleon, but he may learn from his illustrious example that the real energies of youth are not necessarily criminal. He must believe it possible to develop a good citizen out of the youthful delinquent. There will be much to shatter his confidence. It takes time to develop child. A year is a short time in his work. There will be many lapses among his wards. But he will move forward calm in his assurance of his ultimate results.

An ability to read human nature will stand a probation officer in good stead. His first duty is to establish a relationship of trust between himself and the probationer. He must overcome the natural suspicion of parents and guardians and make them feel that he is their friend. He must know how to maintain supervision without espionage. He must study the wards home conditions and neighborhood environment. A boy just out of high school will not do these things well, neither will a supernaturally clever man. A retired schoolmaster who has forgotten the feeling and experiences of youth. Old enough to have some knowledge of human life he must be young enough to have red blood in his veins.

Common sense, rather a uncommon commodity in these days, must be the probation officer's chief asset. He cannot afford to be sentimental, visionary, hasty or prejudiced. He has to depend a great deal upon his own originality and power of initiative in carrying out the orders of the court and in adapting his methods to the need of his wards.

The necessity of woman probation officers is everywhere recognized. The care of delinquent girls is an even more serious problem than the care of the wayward youth. About 75 per cent of the crimes of girls are sex crimes and there are many of these. For this reason our woman probation officers have a difficult task. In one year in the Province of Alberta no less than six hundred cases were dealt with. About 90 per cent of these have been mothered and instructed in such a way that they are now living straight lives. It would be impossible to estimate a right the worth of the work being accomplished by the woman probation officers in our larger cities.

In the probation officer's (stat) shows itself not as a grim vindicator but rather as a wise, kind and yet firm parent, trying to help his weak citizens to be strong. It represents the new method of putting love into law.

## REMOVAL OFFICER ANSWERS CRITIC

"The average price which the horses bought in Alberta has been a little over \$187 per head," said Geo. H. Hoadley, when called upon by the long distance telephone at Wetaskiwin, today. He had not heard of the comments of the horse-breeder association or of the rate of the market, but when outlined to him this was his reply: "Broaders of fancy horses may be a little disappointed at what I say, but from the way the small breeders and farmers are bringing in their horses they seem to be well satisfied with the prices we are paying. Considering the fact that horses which we were selling under \$100 a few months ago are now bringing at least \$50 per cent more, I do not think there is any strong reason for complaint at the prices we are paying."

THE BUSINESS SITUATION.

There has been a slight improvement in the business situation during the past week in some lines, while others remain quiet. The outlook for a rapid improvement is not very bright. It is owing to a temporary lack of cash among the buyers. Retrenchment seems to be the password at the present time; everybody who saves a dollar is doing so, with the result that many of the luxuries which people were prone to purchase during these long winter days have been dispensed with until conditions improve. This appears to be universal. Although the country merchants report that cash is being saved by the people at the present time yet they are quite optimistic regarding future prospects. They state that, taking all things into consideration, it is surprising the amount of money which is in the rural districts.

A pleasing aspect of the situation is the fact that it is emphasized by the country merchants that never in the past have the farmers evinced an optimism so all-pervading as at the present time. They are confident that this will be their big year; and never were they better prepared to make it so. This is easily understood when it is noted that vast quantities of seed have been broken and got ready for sowing during the fall. This, in addition to the high prevailing prices for seed, will make the crop of this year long remembered throughout western Canada.

Although there has been a slightly diminished demand for groceries in some parts, yet this diminution cannot be regarded as serious. It is expected that very shortly business will start to pick up rapidly. Collections are surprisingly good; in fact it has been reported that many large firms will be standing better in this respect at the present moment than a corresponding period of last year.—Commercial.

#### CRITERION HOTEL DINING ROOM REMODELED.

The Criterion Hotel has been undergoing considerable alterations and renovating since it was taken over by the present proprietor, Alex. Ross, the dining room being re-opened a few days ago.

This room is finished in the mission style, but instead of the mission oak being used, B.O. fir, stained with an oak shade was used, giving a quiet color scheme, the ceiling and walls being tinted in water color in a warm buff shade, to reflect the semi-direct lighting system. The lower part of the walls are covered with burlap and decorated in a grape vine foliage design and glazed in Tiffany glass effect in the slight brown autumn tones, yellow, brown, red and green softly blended, this work being executed in oil colors to insure long wear and is perfectly satisfactory in its service. The floor covering is a solid latiche pattern in a color to match the whole color scheme of the dining room.

The lighting scheme is in the mission lantern style, all wall and column tables having their own individual lanterns, giving the room most effective and original lighting effect, being both direct and indirect. This makes a soft and pleasing light to the eyes, and a strong but even light reflected on the table, giving the silverware and table linen their true value, which was specially selected by Mr. and Mrs. Ross. The draperies and lace are of unique design, the lace being in the latest design and weave, picturing the animals of the Ark interspersed in various foliage effects. The entire decoration scheme was executed and designed by the Fisher Co. of Edmonton under the able guidance of Mr. Otto Huber and assisted in the selection and making up of the draperies by Mr. Alex. Ross.

The culinary end of the hotel has not been forgotten, as a new range, strain tables, coffee urns and general kitchen equipments have been installed with great care in the selection, especially for the service of the cereals and breakfast foods, as all these will be cooked by the steam process. This part of the hotel is especially in the hands of Mr. Alex. Ross who has given his whole attention to the selection and installation of the kitchen service of the hotel, having an able chef and help to give the proper and tasty service. The Wetaskiwin can certainly be staid of an hotel with appointments, and with the opening of spring, Mr. Ross

#### OBITUARY

##### DEMISE OF DANIEL MCRAE

The remains of the late Daniel McRae, who passed away at his home in Coronation on Tuesday of last week, were laid to rest in the Wetaskiwin cemetery on Friday. A large number of the old-time friends assembled at the depot and shortly after the departure of the train the cortege proceeded to the cemetery. The pallbearers were: Messrs H. J. Montgomery, M.P.P., R. M. Angus, Jas. Lale, Geo. D. Wallace, F. B. Hutchins and Chas. Nelles.

The late Mr. McRae was born at St. Anne de Prescott, Ont., on May 3, 1858 and went to the county of Glengarry in 1880, where he resided six years. Here he met and married his beloved wife who was Miss Agnes Ross, second oldest daughter of Hugh Ross. Shortly after their marriage they went to reside in Michaud City, Michigan, where he entered into partnership with a cousin in the milling business, but this vocation not agreeing with him, he moved to Bellingham, Wash., in the hope of having his health restored. In October, 1892 he and his family came to Central Alberta and settled on the homestead in the Lawwill district, he was one of the pioneer settlers in this community. In April, 1912, he displaced of his effects and moved to Coronation, where he engaged in business.

Deceased had not been enjoying good health for the past fifteen months but his friends thought that there was no cause for alarm. On Monday evening he became suddenly worse, and he passed away on Tuesday night. He was one of the most highly respected citizens in the community and endeavored at all times to do his share in the upbuilding of this new country.

He leaves to mourn his loss a sorrowing wife, one son and one daughter, namely, Duff C., and Jennie May. The many friends in the community extend the deepest sympathy to the bereaved family.

will give the patrons of his hotel another surprise as his intends altering the rotunda of the hotel. Mr. Ross deserves credit for the fact that he is conducting this popular hotel, and ranks among the foremost hotelkeepers of the province.

### Town Topics

H. B. Cutler is away on a business trip to Red Deer this week.

Mr. J. H. Robinson was a business visitor to Strone and Dayland last week.

Mrs. Ed. Torson of Wetaskiwin, was a visitor at the parental home this week.

Miss Margaret Shantz underwent an operation at the hospital on Tuesday morning for appendicitis.

Rev. Wm. Hambleton, of Provost, was a visitor in Wetaskiwin on Wednesday.

Rev. C. E. A. Potock, B.A. was a visitor to Camrose yesterday, attending a meeting of the Presbytery.

A. Gilmore of Lacombe, is spending a few days in the city this week the guest of Mr. and Mrs. W. H. Odell.

Editor McDowell, of the Dayland Press, was a visitor to the city on Tuesday in connection with a meeting of the Methodist and Presbyterian churches.

The hockey game between the High School Girls and the Business College Girls on Thursday evening of last week resulted in a win for the High School by the score of six goals to two.

Gordon Wilkins, the Crystal's star goal-tender, underwent an operation at the Edmonton hospital to have his tonsils removed on Tuesday, but it is expected that he will be in his shape for tomorrow night's game against the Edmonton Hustlers.

All dog owners in the city are requested to get their licenses before the end of the month as the pound-keeper has received instructions to round up all unlicensed dogs by Mar. 1, and after that date owners will be prosecuted.

E. J. Davies, who has been accountant at the local branch of the Canadian bank of Commerce has been promoted to the management of the Davidson, Sask. branch. Mr. and Mrs. Davies left this week for their new home. The many friends of Mr. Davies congratulate him on his promotion.

A painful accident happened to Mr. Thomas, of French & Thomas on Friday evening last on the carting. He was tripped by one of the rocks and had his collar bone broken. He is able to move around but it will be some time before he will be able to resume his vocation.

Mrs. Sleightholm and Mr. E. P. Woodie, both of Coronation, accompanied the remains of the late Dan. McRae to Wetaskiwin on Friday last. The former and Miss Grace Woodrow remained with the McRae family to Coronation on Monday morning, but the latter is spending a few days with relatives and friends in the district.

R. M. McCarter, of Morville, Ia., was in the city during the past week looking after business interests. He was delighted with the weather here, as just before he left there was a snow blockade in Iowa, and in some places trains could not get through for a week. Telephone and telegraph lines were also put out of commission.

The purchasers of remount horses for army service were in the city on Friday of the government did not appear very anxious to buy. Although they inspected about two hundred animals only nine were taken. Many of the animals complied with the requirements, but the representatives of the government did not appear willing to pay the price asked.

The Grand Lodge of the Al at Independent Order of Oddfellows is convening in Edmonton this week, and several Wetaskiwinites are in attendance, among the number being: Miss Berg, representing Crescent; Helmholtz Lodge No. 6, Fred Albrecht representing Wetaskiwin Lodge No. 8, V. O. French, representing Victor Encampment No. 3, and E. B. Chandler, who is an officer of the Grand Encampment.

The initial meeting of Wetaskiwin's 600 Club was held in Campbell's Parlors on Thursday evening of last week at which there were fifty ladies and gentlemen present. The report having had a most enjoyable time. Mrs. Dr. Johnson explained the objects of the Club and the organization was proceeded with. Three ladies were tied for the ladies' first prize, which ultimately was awarded to Mrs. Wesley Gould. Mr. Norman MacEachern carried off the honors among the gentlemen. After

cards, a very enjoyable social dance was held. Arrangements are being made for a bi-monthly gathering.

Very little interest was taken in the gas detentures which were submitted to the ratepayers on Thursday last, and one of the smallest votes ever polled in the city was the result. Only eight of the citizens opposed the passing of the 14-14, while one hundred and forty-two expressed their approval of the project, to sink No. 3 well to a depth of 3000 feet if necessary to obtain a strong flow of gas. The International Supply Co. are taking the measures at 35, hence there will be no delay in the procuring of money for the completion of the work. We understand the material has already been ordered, and that there will be no delay in the prosecution of the work. If there are no unforeseen obstacles to contend with the citizens should know what the gas supply will be before the spring is very far advanced.

#### SCHOOL NOTES

The sale of valentines made by the kindergarten children in aid of the Belgian Relief Fund realized the sum of \$11.65.

Each represents the effort of a little child to earn something, however small, by the work of his or her own hands, to help towards the alleviation of the sufferings of their less fortunate little sisters and brothers in Belgium.

Each child took his own work home and sold it for the best price he could get, bringing the proceeds on Friday morning to deposit in a box provided for the purpose in the kindergarten.

On opening the box the above sum was found to be the total, making an average of 25 cents per child. We would like to take this opportunity of thanking the parents and friends of the children, who so generously responded to this call.

The children of the primary grades also held a sale of their work, and realized \$9.20. The two amounts together total \$20.85, which has been handed in to the proper authorities.
